## Ribbentrop Crows As Filov Signs Up With The Axis

# GERMANS MARCH INTO BULGARIA

From Our Diplomatic Correspondent

WHILE GERMAN RADIO STATIONS WERE ANNOUNCING TRIUMPHANTLY YESTERDAY DETAILS OF BULGARIA SIGNING THE AXIS PACT IN VIENNA, REPORTS REACHED LONDON THAT GERMAN TROOPS HAD CROSSED SEVERAL POINTS AND HAD ENTERED BULGARIAN TERRITORY.

At the same time (says Reuter) German bombers flew ceaselessly over Sofia, the Bulgarian capital.

B.U.P. reported that Nazi forces had reached Varna, the main port in the province of that name, and last night (Reuter reported) the first armed German soldiers in uniform entered Sofia. A black-out was ordered in the town from 6 p.m.

Although these reports were unconfirmed in London, there is reason to doubt their accuracy.

For Bulgarian Prime Minister Filov has already signed away his country's independence and had allied himself to the Axis powers, Germany, Italy and Japan.

Before Filov left Sofia he had a long interview with King Boris, and later presided at a Cabinet meeting which unanimously decided to support the Axis.

"I signed," signed "on the dotted line" 40 minutes after Hitler arrived in the former capital of Austria.

He then attended the signing of the pact in the Castle Belvedere, but received the signatures after the German Prime Minister, was Master of Ceremonies.

Four months ago, Nazi Foreign Minister, was Master of Ceremonies in Vienna yesterday, the official German News Agency published a story in Berlin to this effect:

"Expert examination of a bomb found near the water works of Sejana, near Sofia, has indisputably proved that the explosion it contained is of British origin."

"The bomb, which contained over 40 lb. of high explosive material, was made by British agents near their resort with the intention of destroying Sofia's water supply."

In a brief address, Ribbentrop, who had been invited to express his decision to join the Pact.

The text of the agreement says:

(1) Bulgaria agrees to join the Three-Power Pact between Germany, Italy and Japan, signed on September 27, 1940.

(2) As stipulated in Article Four of the Pact, joint technical commissions will deal with questions concerning Bulgaria. Representatives of the Bulgarian Government will be asked to take part on these commissions.

(3) The text of the original agreement will be attached to this agreement, which will be set out in the German, Italian and English languages.

After the signing, Ribbentrop made one of his first flights to Bulgaria, which he said would be the last country to sign the Pact. "In the end there will be no country left undivided for all the nations who have joined us."

Vichy-Japanese Riddle

THERE were conflicting reports yesterday about Vichy's attitude towards the Japanese ultimatum that France should settle the Thailand-China dispute in their favour.

No. 1 from Saigon, French Indo-China, French authorities have told United States officials that the latest Japanese demands have been

No. 2 from Tokyo: A conciliatory reply from Vichy has been received by Japan. This reply will form the basis of further negotiations. Another Tokyo report said that it was authoritatively reported that the Japanese had been informed that Vichy would be ready by today.

Then, last night, another message from Saigon quoted by B.R.P. and American in bitterness among the French in Indo-China has followed reports that Vichy has accepted Japan's terms.

## Year Off For Good Behaviour

### Woman Spy Freed From Jail

From Our Own Correspondent

Dundee, Saturday. MRS. JESSIE ANDREW, Dundee hairdresser, who three years ago was arrested on charges under the official Secrets Act and was sentenced by the High Court to four years' imprisonment at St. Andrews, was released from jail today.

She had earned one year's remission of her sentence for good behaviour.

#### NOW INTERED

A few months ago Mrs. Andrew was advised to remain in the prison at Aberdeen.

She is now in an internment camp in the Edinburgh area, where she is likely to remain the duration.

Normally, Mrs. Andrew would have been deported to Germany. Her first husband was a German, and so she acquired German nationality. He died fighting for Germany in the last war.

Mrs. Andrew married again, but later divorced her, and so she acquired Scottish nationality.

She spent a large part of her time in the prison hospital at Saughton Jail, Edinburgh, and her health was far from good when she was released.

She was in the hospital with her daughter, Mrs. Marja Reid—whose passage to Germany Mrs. Andrew had arranged. She had the time of her life there, died in a German hospital.

## LONDON "ALERTS" LAST NIGHT

TWO brief air raid "Alerts" in London last night were soon followed by "Raider Passed" signals.

An Air Ministry statement last evening said: "There has not been any enemy action over this country during daylight today. There is no report of any bombs having been dropped."

## Saving Food

### RATION CUTS FOR SERVICES

#### RACTIONS FOR SOLDIERS, SAILORS AND AIR-MEN SERVING AT HOME TO BE CUT TO SAVE THE NATIONAL DOUGH

This was announced yesterday by the Ministry of Food, who said that the Board of Admiralty, the Army Council and the Air Council had agreed to effect reductions as a contribution to the national food and shipping situation.

The following are the new ration scales of the Army and Royal Air Force. Metal scales will be issued separately. Naval shore establishments' rations will conform to the new scales.

**MEAT:** A reduction of 2 oz per man and 1 oz per woman per day will be made.

**SUGAR:** A reduction of 1 oz per man per day for all those fed in messes, the same scale as women.

**TEA:** A small cut in Sedentary Occupations—All male and female ration card holders, except those in messes, will be given a reduction of 1 oz per day for the same scale as women.

**CIVILIAN:** This will affect all those employed on sedentary occupations, including those employed on sedentary occupations with subsidies.

**ARMED FORCES:** All those employed on sedentary occupations with subsidies.

**RAF:** Latest figures for the air force in the Middle East, Libya, E. Africa, Albania and Malta—show that the approximate losses on our side are:

Axis German British

February .. 415 26

January .. 192 14

**Since war began .. 1,383 115**

Axis German British

February .. 11 22

January .. 1 8

**On patrol .. 54 54**

**By the Navy .. 7 8**

**Total .. 54 54**

About 1,200 of these were Italian and the remainder Greeks. As the Greeks are not included, it is likely that about half of the 2,500 front-line men in the Middle East who entered the war are now accounted for.

In Army and Air Force units the daily scale of meat is to be reduced by 2 oz.

and, in certain instances, by more.

RAF SWEEP N. FRANCE

### Three Enemy Fighters Down And a Bomber

THREE ENEMY FIGHTERS WERE DESTROYED DURING AN OFFENSIVE SWEEP OVER NORTHERN FRANCE CARRIED OUT BY AIRCRAFT OF THE FIGHTER COMMAND YESTERDAY AFTERNOON. LATER, AN ENEMY BOMBER WAS SHOT DOWN INTO THE CHANNEL BY ONE OF OUR FIGHTER PATROLS.

None of our aircraft is missing.

And last night, after crossing the Channel in a strong south-westerly wind, RAF bombers attacked the invasion coast.

A heavy barrage was put up by the ground defences. The flashes of incendiary bombs were visible almost simultaneously at intervals.

The raiders, however, appeared to have been taken by surprise, for it was not until after bomb explosions had been set off that ground defences went into action.

Batteries of searchlights also went into action to locate the bombers.

A long and heavy attack on Germany's great naval port of Kiel, already subjected to a heavy barrage, was made by the RAF on Friday night, when many heavy bombers were used.

Many of the enemy continued to surrender since the communiqué was issued.

Two hundred Italian soldiers imprisoned themselves in a "self-made prisoners' cage" at Mogadishu, Italian Somaliland, to await the entry of British troops, it was revealed in an official communiqué issued in Nairobi yesterday.

The occupation of Bardera, an important road junction on the Juba River, 120 miles north of Gobell, is found. Much valuable air equipment had been abandoned on the roadside.

**MOPPING UP**

Yesterday's Cairo communiqué said that there was nothing of interest in Libya, Eritrea and Abyssinia.

Following the occupation of Bardera, the communiqué added, "our troops are now clearing the surrounding country from water-borne raiders and rapid withdrawal. Prisoners taken during our advances along the coast up to the frontier have been released."

Eden was also attacked and destroyed.

**BIG DOCKS**

Despatch from Wilhelmshaven said, the Air Ministry News Service stated last night:

"In London last night were seen by the 'Raider Passed' signal."

An Air Ministry statement last evening said: "There has not been any enemy action over this country during daylight today. There is no report of any bombs having been dropped."

Eden was also attacked and destroyed.

**CHOCKS TO BE SCARCE**

**WEETS** are to be scarce, according to a Cairo communiqué.

Manufacturers announced this yesterday. They are sacrificing their dealers to the public.

For Minister's request, so that the ingredient can be used for the lower-priced brands.

The sweet shortage will soon become acute again.

Shops are already closed because they cannot get supplies; others open only three days a week.

**Bournville Cocoa's the stuff for a growing chap, and mother says**

**IT'S ONE FOOD THAT'S DOWN IN PRICE!**

WHAT'S this? A food that's down in price? Yes, madam. Bournville Cocoa costs you less than it did before the war. It has been reduced to 5d per pound. However, now sell this old friend Bournville Cocoa to be a big help in keeping the bills down. And don't forget that it's a natural food and it helps your nerves!

# FOOD FACTS

Number 31

Every night our stout-hearted lorry drivers are risking their lives to bring you food. They don't let you down—so don't let us down by wasting food.

WHAT do you put in your "carried meal"? Here are a few suggestions for things that are possibly tastier and more digestible than those you make now. These are cheap and hardly any trouble to prepare. Have them at home, too, sometimes; they always make a good meal.

## ON THE KITCHEN FRONT

### Savoury Splits

These are delicious, filling things to have during a day's hard work or a night watch.

Sift 6 ozs. plain flour with 2 level teaspoons baking powder and a teaspoonful salt. Mix thoroughly with 4 ozs. sieved cooked potato (sieved, if possible, when still hot). Rub in 1 oz. fat and blend to a soft dough—with 4 tablespoonsfuls of water. Roll out on a well-floured board and cut into rounds. Glaze the tops with a little milk. Bake in a hot oven for 15 minutes. When cold, split the scones and fill with one of these mixtures.

1. Finely diced cooked vegetables with a little white sauce.

2. Finely diced cooked beetroot bound with horseradish or some other sharp sauce.

3. Mixed vegetable curries.

4. Shredded raw cabbage, heart well mixed with mayonnaise and chopped onions.

5. Sweet Splits

If you like something in the sweet line, make your scones as above,

but for the filling mix some cocoa and sugar (or honey) to a cream with milk. Then work in a little creamed margarine.

### Piccaninies

These are grand energy givers, and are good to take to work if you are able to heat food. All you do is to roll out a large scone, bake it in its jacket till soft. Cut in half lengthwise, scoop out the middle and mix with any of these fillings.

1. Equal quantities of cooked shredded cabbage, diced carrot and turnip bound with white sauce flavoured with a dash of picante sauce.

2. Roughly-chopped kipper bound with mustard sauce.

3. Shredded winter green cooked in a little water with some bacon, flavoured with salt, pepper and mustard, bound with enough flour.

4. Pile up whichever mixture you choose in one half of the potato jacket, put the other half to the top, and press together. Replace in the oven to heat through.

## Children's health fortified during war years

Vital vitamins now added to Rowntree's Cocoa

**CHILDREN** are not going to suffer any shortage of necessities if mothers help it. And there is one thing mothers can do to give children certain vitamins which are absolutely necessary to keep them healthy—vitamin C. Those vitamins have now been added to Rowntree's Cocoa. And this means they are helping to build little bodies and build strong, healthy muscle—

1. They ward off illness, give protection against colds and flu.
2. They strengthen teeth and bones, promote sturdy growth, prevent rickets.
3. They help the eyes to better sight—very important in the black-out.

## Making munitions as fast as she can—but ignoring delayed-action Rheumatism

HER job is turning out tiny parts of a gun, machined to a tiny fraction of an inch. Now she is going to say that she has a cold job—the workshop is warmer than her own kitchen used to be, but under her feet is cold concrete. Outside the workshop is cold air. Conditions which rheumatism delights in, because it gets every chance to develop its villainy.

The thing may happen to you as happens to her and so many others. They mistake those first twinges of rheumatism which will be rapidly followed by long, long, long spells of pain. Have a gun to Kruschen at once. Kruschen rinses and sweeps away the poison from the skin, and the pain disappears. Kruschen is unique because its salts give it a Double Action, both diuretic and antiseptic. It is the only gunpowder-workshop is cold air. ## WAKE UP YOUR LIVER BILE

With Calomel—and don't you dare to drink in the morning or of wine and vinegar. The liver should pour out two pints of liquid into your bowels every day. Due to the lack of exercise, the food doesn't digest. It can decay in the bowels. Gas begins to form. Your whole system is poisoned and you feel sick. Laxatives help a little, but they don't remove the cause. It takes those old carters' Brand Little Liver Pills and make you feel up and out the free fresh. Ask for Carter's Brand Little Liver Pills. Substantially reduce any size. 1.5 ha. and 1.5 ha.

Betty Blue Says

## She Wore a White Waistcoat

**T**HEY all approved of her as she came into the restaurant. I could see it. Her navy suit was brushed and pressed. The short skirt had a jaunty swing. Her hat was pink and she wore a white waistcoat. One of the new simple button-up ones. No, she wasn't one of those leisure luxury girls, but a young nurse who had stuck the winter in a children's hospital in a much blighted town, and this was her first week's leave.

◇ ◇ ◇

"Nice clothes do help a girl to enjoy herself," she told me. And as she couldn't spare even a few moments, she had taken 4 inches off the hem of the skirt, tacked a little discreet padding into her coat shoulders and a hot iron had done the rest. The pink hat and white waistcoat were her only "buys."

◇ ◇ ◇

We all have special occasions—home-comings, family reunions and service parties. Well, let's make up our minds while we can to "don a white waistcoat."

## TASTIES For Sunday Tea

By "HOUSEWIFE"

**S**CARCE times for cakes—but we all like to have something extra for Sunday tea, a batch of nice biscuits, a cake or two, a few sweets, a few chocolates for something for Sunday tea. Write your most popular one on a postcard and send it to "Housewife," Acme House, Long Acre, London, W.C.2, to arrive not later than March 15, 1941, for all recipes published.

The following sent winning recipe:

For breakfast dishes:

ORANGE FRITTERS

INGREDIENTS: 2 tablespoonsful of flour, medium oatmeal, 1 tablespoonful of sugar, 1/2 oz. of butter, 1/2 oz. of baking powder, the beaten flour, baking powder. Add enough cold milk to make a soft dough. Roll out, cut into 2 in. squares. Drop spoonfuls into hot fat. Cook on both sides until crisp. Serve with honey.

These fritters are delicious, served with bacon fat. They help to keep the skin clear. They are good for breakfast, tea, or for a light supper.

Curried fritters are grand on a cold winter's day. Use 2 oz. of bacon fat.

Curried fritters are grand on a cold winter's day. Use 2 oz. of bacon fat.

FRIED BREAD

CUT slices of bread rather thickly, then turn them over, dipping them in a tray of beaten egg. Put them in a dry frying pan with a little bacon fat. Cook until crisp. Turn them over and crisp again. Serve with honey.

These fritters are delicious, served with bacon fat. They help to keep the skin clear. They are good for breakfast, tea, or for a light supper.

LENTIL CAKES

INGREDIENTS: 2 tablespoonsful of flour, 2 tablespoonsfuls mashed potatoes, 1/2 oz. of butter, 1/2 oz. of pepper, 1/2 oz. of grated nutmeg, 1/2 oz. of baking powder.

Place lentils in a pan (after washing) and cover with water. Boil until soft. Then add margarine, bacon fat, pepper and nutmeg. Mash with a potato masher and add baking powder. Mix well and add to the lentils. Turn into a greased tin and bake in a moderate oven for 20 minutes.

These fritters are delicious, served with bacon fat. They help to keep the skin clear. They are good for breakfast, tea, or for a light supper.

POTATO ROUNDS

GRATE a large potato into a bowl and season with salt and pepper. Turn it up in egg and mix well. Add raw potatoes and mix well. Have a ready crisp can with hot fat. Turn the potato rounds into breadcrumbs and fry until golden brown. Turn them over and crisp again. Serve with bacon fat.

**ACID STOMACH****CONSCRIPT the GOOD-TIME GIRLS FIRST!**

BY OUR INDUSTRIAL CORRESPONDENT

HERE ARE MANY FIT AND ABLE-BODIED YOUNG AND YOUNGISH WOMEN WHO ARE EATING THEIR RATIONS, AND DOING NO NATIONAL SERVICE IN RETURN.

\* Such women should be called for, industrial experts before we ask the young working-class wife to drop her babies in a day nursery and clock in at a factory at six in the morning.

This opinion is given by Miss Mabel Sutherland, who said: "It will be repeated in the House of Commons when Mr. Ernest Bevin, Minister of Labour, introduces his Bill to Parliament. His Order to register and call us women for industrial service, when it is passed, will be when Mr. Bevin's attention will be drawn to it."

Young women who can be called for, afternoons, evenings, and so forth, to work in the hotels in the West End of London, and in the county towns, are acceptable.

— 2—Weakly wives and their daughters, in households where parents are servants to do all the housework.

— 3—Women who are packing the ration books.

— 4—Middle-class wives who are doing nothing for the country beyond attending a waiting circle one afternoon a week.

**PLENTY OF THEM!**

A demand that all these should be called up before the young working-class wife is conscripted will be made to Mr. Bevin.

"That there are a good many such women there is no denying," Miss Sutherland adds.

Women who can still find other posterity work, though there are few children, if any, are packed off to boarding-schools.

Turner's, the famous Milan shop, matures quickly and can if desired be sown down under cover. Turnips, once turnips, are best sown for succession.

— 5—Women of the fashionable London shops, many, any afternoon, provide even more.

Miss Sutherland makes it clear, on the other hand, that the woman who is managing a home and has a husband numbered among these "others."

The home-keeping woman, she effort, just as much as the woman who is working in the factory, who is working in the factory.

— 6—RUSHED AT HIM WITH BAYONET

HOW a soldier was sledged to the ground and attacked a man with a bayonet was told at Birmingham yesterday. When R. J. Williams, 22, of the five of Highgate-rd., Birmingham, was remanded on a charge of attempting to murder a bus driver.

Mr. P. G. Pugh, prosecuting, said Turley only came home on leave. Williams had been on leave on service his wife had been committing misconduct with the bus driver.

Turner's issued this association, and had written letters threatening to kill both of them. Williams had been sledged to the ground with a bayonet he was wearing, and a struggle took place. Turley was granted legal aid.

PARSNIPS—Earliest crop to sow. Needs a long season to ripen. Sow in clusters in apart with 15 in. between rows. Seedlings are the strongest. Don't sow all your seed in one. Put in a row, then a row, then a further sowing in four weeks' time to ensure a succession of parsnips.

CARROTS—In cold frame or under cloches make a sowing of Horns of Plenty. Intermediate is suitable for most soils. Carrot seed should only be sown in a thin layer with soil and the drills not more than 1 in. deep. Rows are a foot apart, and the plants to 4-6 in. apart according to variety when large enough. Thin out the plants in two rows a foot at a time every three weeks for succession.

TURMERIC—Milan turns matures quickly and can if desired be sown down under cover. Turnips, once turnips, are best sown for succession.

Let Us Bomb Germany

## POLES WANT REVENGE!

HUNDREDS OF AIRMEN FROM POLAND, CZECHOSLOVAKIA, FRANCE, HOLLAND AND BELGIUM HAVE BEEN FLYING WITH R.A.F. PILOTS ALMOST EVERY DAY SINCE THE GERMANS invaded the Low Countries and France.

Many risked death to slip through the Gestapo net to come to Britain. And Norwegians are training in Canada to form their own squadrons.

Poles, most numerous of the Allied airmen, have been in almost every big air battle over Britain. One of their squadrons scored a record 100 victories in five weeks last summer.

Bomber crews have worked with the R.A.F. to smash Hitler's invasion plans. The Polish contribution is yet to be realized—bombing raids into Germany.

First, Britain, the Polish airmen first escaped into Rumania when Poland was invaded by Hitler's hordes. They followed a hazardous journey across Europe to France or to North Africa. Many Polish airmen were formed into units, the pick of the pilots being drafted to Britain. Some went to the Western Front.

Czechoslovakian pilots organised mass escapes from their country. They tramped to the German frontier in small groups, inventing a variety of stories to cover their movements. Often they were helped by the known identity of Gestapo agents who had been sent to the Western Front.

Belgian's EXPLOIT—Because their number is fewer, less has been heard of the exploits of the Free French, Belgian and Dutch airmen—but they, too, are helping to break the German war machine.

A Belgian pilot had a good day over Plymouth when he shot down three enemy machines and had a double fourth.

Pilots of the Dutch Naval Air Service are flying with the Coastal Command. Many others, being trained in the Dutch East Indies, will soon come to England.

There are also a number of British airmen operating with British squadrons. Many found their way to Britain after the capricious German air row escapes; but none in a more spectacular manner than a twenty-year-old Englishman who, in a plane belonging to the Royal Armistice Commission at Cassala, Egypt, had a narrow escape from the Luftwaffe.

A sergeant pilot, The corporal reached England and is now attached to a British squadron.

## More Dutch Riots STONES AND INSULTS AT GERMANS

DISTURBANCES in Holland and Norway last week, arising out of the people's hatred of Nazi rule, were more serious and widespread than was at first believed.

Last night the Free Norwegian government reported that rioting has taken place not only in North Holland, where most of the Nazis have been prominent, but also in other provinces. Several people have been killed.

Violence was clearly shown by an appeal by the Burgomaster of Utrecht imploring young and old to "keep quiet."

Measures and orders from the occupation forces must be strictly observed," he pleaded.

"Work, no abuses, insults, stones breaking and throwing of stones cannot be tolerated."

MEETINGS—The Free German's DILEMMA—Because their number is fewer, less has been heard of the exploits of the Free French, Belgian and Dutch airmen—but they, too, are helping to break the German war machine.
